

MEDICAL SERVICES

PROACTIVE HEALTH ASSESSMENT (PHA)

WE ARE FOCUSED ON THE EARLY DETECTION OF CONDITIONS, ISSUES AND RISK FACTORS – AND PROVIDE PREVENTATIVE STRATEGIES THAT LEAD TO HEALTHIER LIVES.

Three hours with our team can change your life, and transform your health. Unlike other doctor visits, the Proactive Health Assessment offers extended physician time, in-depth diagnostic tests and screening, and a personalized fitness evaluation. You'll get the time, insights and support you need. Access to Wello virtual healthcare is included for one year following your assessment.

\$1,725 per Medical Assessment

\$1,625 per Spouse Assessment

Preferred rates are available for spouses of current Health Assessment clients

TOTAL HEALTH MANAGEMENT (THM)

WE DELIVER YEAR-ROUND PRIMARY MEDICAL CARE FOR INDIVIDUALS, FAMILIES AND EMPLOYERS WHO WANT PREVENTATIVE AND PERSONALIZED HEALTHCARE.

Our program offers a proactive approach to health, delivered by your own physician-led team of medical and healthcare providers. Explore options to optimize your health and tackle short and long-term risk factors that affect lifelong physical and emotional health and well-being.

In addition to insured medical services, THM clients receive extended medical appointments, phone and email inquiries, electronic prescription renewals, travel medicine consultations, access to WorldCare Medical Second Opinion, on-site lab services, patient health portal, and four health service credits. Credits can be used towards any of the following options: Fitness & Movement Medicine Training, Medical Aesthetics consultation, microdermabrasion, nutrition counselling, physiotherapy or psychological health sessions.*

\$4,565/year for all new adult clients, includes a Medical Assessment and program intake (Year 1)

\$4,565/year, includes an annual Medical Assessment (Elite Program)

\$3,400/year, excludes an annual Medical Assessment (Adult Program)

PREFERRED RATES ARE AVAILABLE FOR IMMEDIATE FAMILY MEMBERS OF CURRENT THM CLIENTS.

THM SPOUSE

The subsequent year program for the spouse of a current THM Elite or Adult client. The Spouse program is identical to the Adult offering at a preferred family rate.

\$3,200/year for spouses of current THM Elite or Adult clients

THM YOUNG ADULT

Designed for children aged 18-25 of current THM Elite or Adult clients. Young Adults receive annual growth and developmental assessments in addition to features of the Adult Program.

\$1,325/year for children aged 18-25 of current THM Elite or Adult clients

THM CHILD

Designed for children aged 0-17 of current THM Elite or Adult clients. Children receive annual growth and developmental assessments in addition to features of the Adult program.

MEDICAL AESTHETIC SERVICES

BOTOX COSMETIC®

Botox Cosmetic® injections at INLIV are performed by an experienced team of specially trained physicians to ensure your safety and peace of mind.

CHEMICAL PEELS

Chemical peels help improve your complexion and can also reduce the appearance of fine lines, pigmentation and ease acne. They are available in different strengths designed to meet the needs of your skin.

CLEAR + BRILLIANT® LASER

Clear + Brilliant® laser treatments help stimulate collagen production and generate fresh tissue growth for a natural youthful glow to your skin. More effective than a chemical peel or microdermabrasion, yet less intense than a fractional laser treatment, there is minimal recovery time. You may notice improvement within a few days following your treatment and the results become more evident after a week.

COOLSCULPTING®

CoolSculpting® effectively freezes and destroys fat cells to help reduce those unwanted bulges of fat. Lose your love handles, belly fat, saddlebags and more. A popular treatment for men and women.

DOUBLE CHIN REDUCTION INJECTIONS

This non-surgical, injectable treatment effectively reduces the appearance of a double chin, helps redefine the jaw line and improves your chin profile. Popular with men and women, this injectable treatment works to destroy fat cells in the target

EXCESSIVE SWEATING

If you're embarrassed by sweat stains, you're not alone. Don't sweat it - we can help with injections to reduce excessive sweating (hyperhidrosis).

FACIAL AND LIP FILLERS

Our hyaluronic acid fillers help restore facial volume, fill unwanted skin folds and lines, and enhance features like the lips. Results are visible immediately with our facial fillers and there is no downtime. Most popular for the face and lips, fillers can also be used on hands and ears to reduce the effects of aging.

FRACTIONAL LASER NON-ABLATIVE SKIN RESURFACING

Effective for the face, neck and décolleté, fractional laser resurfacing helps to improve skin texture and tone, and reduces the appearance of scars and stretch marks.

INTENSE PULSED LIGHT

IPL helps to reduce the appearance of age spots, sun spots and broken blood vessels, and can also ease rosacea. IPL is ideal for treating the face, neck, décolleté, hands, arms and more, with no downtime.

MEDICAL AESTHETIC SERVICES

MICRODERMABRASION

Perfect for men and women, this exfoliating process gently removes the top layer of dead skin cells, giving you a polished and glowing appearance. Look as good outside as you feel inside!

\$132 per treatment

PLATELET RICH PLASMA / VAMPIRE FACELIFT

Known by celebrities as the "vampire facelift", Platelet Rich Plasma (PRP) uses your body's own healing platelets to stimulate collagen production, and encourage cell and tissue regeneration. It's the natural skin rejuvenation treatment.

\$660 per treatment

PLATELET RICH PLASMA (PRP) FOR HAIR LOSS

Platelet Rich Plasma (PRP) injections for hair restoration offers a natural solution for treating hair loss and thinning hair. PRP works by injecting your body's own healing platelets into dormant or inactive hair follicles, stimulating them to enter an active growth phase helping new hair begin to grow.

\$660 per treatment
\$2,999 per series of 5 treatments

THERMAGE®

Thermage® is a non-invasive treatment that tightens loose skin on the face, neck, jowls as body. It's a popular treatment to tighten skin around the eyes to reduce the appearance of 'hooded' eyes.

FITNESS & MOVEMENT MEDICINE SERVICES

FITNESS & MOVEMENT MEDICINE TRAINING

Fitness & Movement Medicine Training is designed to promote the health and wellbeing of our clients through a thoughtful approach to coaching movement. Programs are designed to improve the quality of life and longevity of our clients, with high level care and consideration for existing health and fitness levels including acute or chronic conditions and mobility issues.

Our purpose is to educate and guide our clients towards achieving their health and fitness goals. Our training is customizable to your needs, and our highly skilled trainers interact closely with you to provide assessments and personalized programs. Training is by appointment-only in our private fitness centre, and through virtual sessions.

VIRTUAL TRAINING (VT)

Virtual Training offers a convenient option to workout from home, at work and while travelling. It also provides a safe alternative for our at-risk clients during the ongoing pandemic. Your trainer will create a plan based that supports goals, based on the equipment you have access to. This training format provides motivation, accountability and support using a simple-to-access video platform.

PERSONAL TRAINING PACKAGES

CORPORATE HEALTH SERVICES

Employees are often so busy at work and at home that their health takes a backseat. That's not good for them, and it's not good for business. Today, forward-thinking companies invest in proactive health programs. This helps keep employees healthy and productive. It also reduces the cost of disability claims and absenteeism. By investing in your team's health, you're able to build a stronger foundation and future for your company.

INLIV has over 40 years of experience providing executive, workplace, and occupational health programs and services to Calgary's diverse business community and beyond.

OUR CORPORATE HEALTH SERVICES

PROACTIVE HEALTH ASSESSMENTS

A personalized, annual medical and health risk evaluation. Our assessment offers extended physician time, in-depth diagnostic tests and screening, and a personalized fitness evaluation. We focus on identifying individual risk factors and medical concerns. This early detection process may reveal a significant health issue before it becomes a chronic condition.

TOTAL HEALTH MANAGEMENT

A year-round primary care program offering exceptional service and support. On-time, generous appointments – available in-person, by phone and video – and unlimited contact with our medical team, including on-call physician access outside of office hours. Our goal is to make sure your employees get the care they need, when they need it.

HEALTH RISK ASSESSMENT (HRA)

We identify the health and wellness factors that are most important and problematic for your organization, following a unique HRA to determine health, job satisfaction, lifestyle behaviour, and more. This allows us to create a better strategy on a personal and company-wide level.
